

Amendments to the Specification:

Please replace paragraph [0029] with the following amended paragraph:¹

[0029] The main blade 371 and the auxiliary blade 381 are in a wing shape which once gradually increases and thereafter gradually decreases in the blade thickness as shown in FIG. 4. The main blade 371 is larger than the auxiliary blade 381 in the blade thickness, and ~~warping the~~ warpage of the main blade 371 is larger than that of the auxiliary blade 381. The main blade 371 is larger than the auxiliary blade 381 in chord length, whereby the intake ability of the main blade 371 is higher than the intake ability of the auxiliary blade 381.

¹ Although Applicant did not include paragraph numbers in the application, as filed; Applicant identifies this amended paragraphs and cites to other portions of this application using the paragraph numbers assigned by the PTO in the Published Patent Application No. US 2004/105757 A1.
